Nov. 26 - Dec. 2 Eisenbeis

December 3 - 9 Eisenbeis

Mission Offering

Our new mission for the 1st semester is Kingdom Workers and a new project they have, Reading Gardens in Indonesia. These Reading Gardens will be used to improve literacy, but their greater purpose will be to introduce children and their families to their Savior. Their goal is to develop at least 14 Reading Gardens.

\$300 - Purchase and transport of one bookshelf

\$500 - Shipping of books

\$700 - Training of local volunteers

\$1,500 - Books for one library

\$3,000 - A complete Reading Garden

Last week's mission offering was **\$60.68**. Our total for the 1st semester is **\$418.47**.

Good luck hunters! We pray all those who are hunting this weekend and the coming week will have a safe, successful and enjoyable hunting season.

There will be no basketball practices during Thanksgiving Break. Practices will resume on Monday, November 26. The boys and girls will be practicing together. Practices will be on Monday, Tuesday, and Thursday from 4:30 - 6:00 at Trinity (except on nights there is a game schedules).

Basketball vs. Zion, Egg Harbor

A new game has been added to our basketball schedule. We will be playing a co-ed game against Egg Harbor on January 19th, 11:00 at St. Paul's Lutheran School in Green Bay. We are playing in Green Bay in an effort to make less travel for our teams. We plan on continuing this in the future.

Today is America Recycles Day!

Each year on November 15, millions of people across the United States take part in America Recycles Day, a day which was created to raise awareness about recycling and the purchasing of recycled products.

America Recycles Day was started in 1997 by the National Recycling Coalition and is declared each year by Presidential Proclamation, encouraging Americans to commit to recycling.

- A used aluminum can is recycled and back on the grocery shelf as a new can, in as little as 60 days.
- If all our newspaper was recycled, we could save about 250,000,000 trees each year!
- Americans use 2,500,000 plastic bottles every hour! Most of them are thrown away!
- A modern glass bottle would take 4000 years or more to decompose -- and even longer if it's in the landfill.
- The highest point in Hamilton County, Ohio (near Cincinnati) is "Mount Rumpke." It is actually a mountain of trash at the Rumpke sanitary landfill towering 1045 ft. above sea level.
- A typical family consumes 182 gallons of soda, 29 gallons of juice, 104 gallons of milk, and 26 gallons of bottled water a year. That's a lot of containers -- make sure they're recycled!
